

# Welcome at the myvo.ch site

We, a pool of experts in the age of 60+, can support other companies with setting up, coaching or leading project-teams or task-forces very efficient:

Verify a business-idea, a team or a critical project phase early with internal and external experts and build accordingly strong and efficient project teams or task-forces.

Don't risk expensive delays at the time when you want to go to your market.

We push ourselves and others to clear, honest and provable statements based on the fundamental understanding of all related subjects. This is the key.

We care for everything, if you want/need fast support from our pool of experts.

Urs Zogg's hobby can be found under [newbulb.ch](https://newbulb.ch), where you have a good and critical example, how to go to such fundamental understanding of the subject with bulbs.

myvo.ch is as well Urs Zogg's Microsoft 365 Business tenant – for a pool of such experts and coaches in his age.

This site, [myvo.ch](https://myvo.ch), is available as [myvo.pdf](https://myvo.pdf).

[urs.zogg@myvo.ch](mailto:urs.zogg@myvo.ch), +41796392222.

Urs Zogg finished his master studies in electronics at the SFIT Zürich in 1978.

Urs worked in the audio industry, from 1979 to 1986 (P1), (P2), was head of the Revox Product Line (SR) and head of Willi Studer's product development.

Urs was professor at the ZHAW, from 1987 till 2002, where he was teaching electronics & communication (IP-technologies in computer-, telecommunication- and automation-networks).

Urs was CEO of Newbac AG, from 2003 to 2023, till the age of 70 years and responsible for telecommunication-services and CPE, mainly in the voice-over-IP field.
